EDUCATION

Vellore Institute of Technology

B. Tech. in Computer Science Engineering | CGPA: 8.44

Vellore, Tamil Nadu

September 2022 – June 2026

Delhi Public School

Senior Secondary Education (CBSE) | Percentage: 81.40

Patna, Bihar

2022

Delhi Public School

High School Education (CBSE) | Percentage: 82.80

Patna, Bihar

2020

SKILLS

Programming Languages: Java, Python, JavaScript

Backend Development: Spring Boot, Hibernate, RESTful APIs, Node.js, Express.js, API Development

Frontend Development: HTML, CSS, JavaScript, React.js, Tailwind CSS, Responsive UI

Databases: MySQL, MongoDB, Redis

Developer Tools: Git, GitHub, GitHub Actions, Docker, Linux, CI/CD, Postman, VS Code

Core CS Concepts: Data Structures, Algorithms, Object-Oriented Programming (OOP), Operating Systems, Database Management Systems (DBMS), Computer Networks, Software Engineering, Software Development, Agile Methodologies

EXPERIENCE

Backend Development Intern

June 2026 – September 2026

PrimeTrade AI

Remote

- Engineered backend services in Python for an AI-powered financial trading platform, implementing asynchronous processing to handle real-time market data reliably.
- Designed and shipped 10 production-grade REST APIs and automated backend workflows, cutting down manual intervention and speeding up feature delivery.
- Strengthened platform reliability by testing, debugging and wiring CI/CD pipelines with Redis, Linux and GitHub Actions.

AI & Data Science Trainee

June 2025 – July 2025

C-DAC Patna | [Link](#)

Patna, Bihar

- Built and evaluated supervised and unsupervised machine learning models using Python, Scikit-learn, Pandas, and NumPy.
- Boosted model accuracy through systematic data preprocessing and feature engineering, earning a Grade A certification for performance.

PROJECTS

AgriPred | [Live](#) | [IEEE](#) Published | Tech Stack: React.js, Python, TensorFlow, Flask, MongoDB, Pandas, NumPy | [GitHub](#)

- Developed a deep learning-based rice disease classification system trained on 10,000+ images across 10 disease categories, achieving 96.46% prediction accuracy.
- Deployed a Flask-based REST web application on Render for real-time disease detection and crop health recommendations, achieving inference times under 1 second.

Code Review Assistant | [Live](#) | Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Gemini API | [GitHub](#)

- Built an AI-powered full-stack web application using Google Gemini API to analyze code quality, software performance, and security across 5+ programming languages.
- Developed a responsive frontend and secure Node.js backend supporting file uploads, REST API integration, and severity-based feedback.

CERTIFICATIONS & INVOLVEMENTS

- Microsoft Azure AI Fundamentals (AI-900)** — Scored 904/1000, validating proficiency in Artificial Intelligence, Machine Learning, Computer Vision, Natural Language Processing (NLP), and Azure AI Services.
- Spring Boot 4, Spring 7 & Hibernate for Beginners (Udemy)** — Completed a 35.5-hour hands-on course covering Spring Boot, Spring MVC, Spring Data JPA, Hibernate ORM, REST APIs, and dependency injection.
- Core Committee Member, Standards Club (BIS, Govt. of India)** - Organized workshops and awareness programs promoting quality standards and industry best practices among students.
